1. Qualitative Information on Consolidated Financial Results for the First Six Months of FY2023 (April 1, 2023 to September 30, 2023)

#### (1) Explanation of Operating Results

During the first six months of the fiscal year ending March 31, 2024, the Japanese economy showed a gradual recovery. Looking ahead, it is expected that the gradual recovery trend will continue, resulting from the effects of various policies, while situation around labor and income improves. However, there is a risk that a downturn in overseas economies, such as the effects of tightening of monetary policy around the globe and concerns about the outlook for the Chinese economy, will put downward pressure on the Japanese economy. In addition, it is necessary to pay sufficient attention to the effects of price increases, the situation surrounding the Middle East region, and volatility in the financial and capital markets among other factors.

The airline industry continued to see a steady recovery in demand due to the full lifting of restrictions on activities including the restrictions on entry and departure after the change in status of COVID-19 under the Infectious Diseases Control Law. During the second quarter (July to September) of FY2023, the number of passengers at Haneda Airport was 1.2 times that of the same period of FY2022 for domestic flights and approximately 85% of the level of 2019 before the impact of COVID-19 hit, while the number of passengers for international flights were more than 4 times that of the same period of FY2022 and just over the level during the same period of 2019.

Under these circumstances, we are implementing various measures outlined in the new Medium-Term Business Plan that the JAT Group has put together to achieve the long-term vision, "To Be a World Best Airport".

In terms of facilities, in order to respond to the rapidly recovering international passenger demand by coordinating with the Japanese Government and the airline companies, from July we have resumed the operation of the Terminal 2 international facilities that was suspended due to the pandemic. In addition, we have been improving the Wi-Fi communication environment in the terminal buildings and have been undertaking tasks including renovation work in preparation for a major disaster, as well as the replacement of facilities which have been installed for a number of years including elevators and moving walkways. During the summer season, we implemented energy-saving measures such as turning off some of the lights in the terminal buildings and controlling the operation of air conditioners. Moreover, we are steadily pushing forward investment plans for the future by commencing the construction of connection between the satellite building on the north side of Terminal 2 and the main terminal building and also by proceeding with the selection of the contractor for the construction of the satellite building on the north side of Terminal 1. In parallel, we are working toward the realization of a carbon-neutral society by studying the conversion of airport vehicles to electric vehicles and researching how hydrogen fuel can be utilized.

In terms of sales, in anticipation of a recovery in international passenger demand once the pandemic reaches an end, we have planned ahead and have been reallocating duty-free stores, including the opening of the first Louis Vuitton store in a domestic airport in Terminal 3 in November 2022. We also opened four new stores in the lobby area this fiscal year. For domestic flights, we opened a limited-time store in "HANEDA Sports" to coincide with various sporting events, and we actively held events featuring local products from various regions of Japan. We are making efforts to provide comfort for airport use and to increase the value of time spent at the airport including the opening of a British pub "HUB" in Terminal 2 in September.

Besides Haneda Airport, after June at Narita Airport, "AIRPORT DRUG" have been reopened in the lobby area, and "Clé de Peau Beauté", "SK-II", and "Hermes" cosmetic boutiques have been opened in the duty-free area. HANEDA INNOVATION CITY, located adjacent to Haneda Airport, has also recruited member companies for the opening in January next year of "terminal.0 HANEDA", a research and development center aimed to solve issues at the airport through collaboration across different industries.

In terms of organization and human resources, in addition to strengthening our recruiting efforts to secure talent, we are also working to improve the compensation and benefits of our employees to achieve high retention. In addition, through an industry-academia collaboration project with the University of Tokyo, expansion of recruitment of people with disabilities, and internal branding project called "Plus One Promotion" among other initiatives, we aim talents who "Think by oneself and take on challenges" to excel and aim to foster a corporate culture in which diverse workforce promote each other's growth.

With respect to our sustainability efforts, we are making company-wide efforts to achieve the Medium-Term Sustainability Plan that we announced in May this year. In addition, we have begun information disclosure based on the recommendations by the TCFD (Task Force on Climate-related Financial Disclosures). We are responding to CDP (Climate Change Related Questionnaire) and other ESG-related surveys and plan to issue an integrated report in November.

In addition, as we marked our 70<sup>th</sup> anniversary of the company's founding in July of this year, we renewed the corporate logos of all 20 companies within the JAT Group as a statement of our determination to become an organization that can always choose the path of evolution regardless of the circumstances. The new design represents our aim to change the mindset of each and every one of our executives and employees, and

also to let the spirit of challenge take flight into the future, leading to a leap forward to become the world's best airport.

As a result of the above, with respect to the consolidated financial results for the first six months of fiscal year ending March 31, 2024, operating revenues was ¥100,148 million (an increase of 129.6% year-on-year) due to the increase in operating revenues across all of the business segments in line with the recovery of passenger volume. Operating expenses increased from the previous year due to increase in passenger volume and sales, but the increase in sales was the driving force and as a result, operating income was ¥13,508 million (compared to operating loss of ¥9,273 million during the same period of the previous year), ordinary income was ¥12,481 million (compared to ordinary loss of ¥9,759 million during the same period of the previous year), and quarterly net income attributable to owners of the parent was ¥8,234 million (compared to quarterly net loss attributable to owners of the parent of ¥3,341 million during the same period of the previous year).

In November 2022, we were awarded the world's highest standard "5-star Airport" rating for the ninth consecutive year in the "World Airport Star Rating" conducted by SKYTRAX of the United Kingdom. In March of this year, Haneda Airport was ranked third in the "World's Best Airports", a comprehensive evaluation of international airports, in the "WORLD AIRPORT AWARDS 2023". Furthermore, we were awarded first place in the "World's Cleanest Airports" (for the eighth consecutive year), "World's Best Domestic Airports" (for the eleventh consecutive year), and "World's Best PRM / Accessible Facilities" (for the fifth consecutive year).

(\* PRM: Persons with Reduced Mobility which means the elderly, person with disability or injury.)

In addition to the impact of external environment including rising prices and exchange rate fluctuations, the airline industry is facing a labor shortage issue due to the rapid recovery in demand for international flights. However, the JAT Group will respond collectively and appropriately to the recovery in demand, while leveraging the lessons learned from the COVID-19 pandemic. We will also strive to improve convenience, comfort, and functionality, establish a customer-first philosophy and achieve absolute safety, and contribute to the continuous creation of value at Haneda Airport and the further growth of air transportation, thereby enhancing our corporate value.

Revenue from facility user charges increased from the previous year primarily due to the increase in the passenger service facility charge (PSFC) driven by the recovery in passenger volume.

Other revenues increased from the previous year primarily due to the increase in paid lounge sales and parking revenue.

On the expense side, the costs for terminal maintenance and management, such as outsourcing and commission and repair costs have increased in line with the increase in passenger volume and price increases.

As a result, operating revenues from facilities management operations was \$45,174 million (an increase of 59.0% year-on-year). Operating income for the segment was \$9,239 million (compared to operating loss of \$4,062 million during the same period of the previous year).

Other revenues increased from the previous year because of the increase in revenue for the wholesaling business serving the international flights at regional airports.

As a result, operating revenues from merchandise sales operations was \\$50,192 million (an increase of 277.4% year-on-year) and operating income for the segment was \\$8,883 million (compared to operating loss of \\$664 million during the same period the previous year).

As a result, operating revenues from food and beverage operations was \(\frac{\pmathbf{7}}{318}\) million (an increase of 89.4% year-on-year). However, due to the impact of curtailed operating hours of restaurants caused by the shortage of labor and the increase in cost of sales driven by the rise in raw material prices, among other factors, operating loss for the segment was \(\frac{\pmathbf{7}}{11}\) million (compared to operating loss of \(\frac{\pmathbf{8}}{818}\) million during the same period of the previous year).

Calculation of tax expenses

The effective tax rate on income before taxes for the consolidated fiscal year including the second quarter after the application of tax effect accounting is reasonably estimated, and that estimated rate is applied to quarterly income before taxes to calculate estimated tax expenses. However, in cases where the use of such an estimated effective tax rate would result in a significant lack of rationality, the statutory effective tax rate is applied.
