Takayoshi Chiba (OAG)

Haneda Airport (*4) was ranked No. 1 in the world for the second consecutive year in the large airports categories (*3) of OAG Punctuality League 2016 (*2), a survey of on-time performance rankings conducted by the UK-based air travel intelligence company, OAG (*1).

We are truly honored for the second consecutive year to earn this accolade as a result of superb teamwork between the airlines, the Tokyo Regional Civil Aviation Bureau and all other airport stakeholders concerned at Haneda, who devoted much effort into ensuring punctuality.

Drawing encouragement from this accomplishment, we will continue to work together as an all-Haneda team to offer outstanding levels of convenience, comfort and functionality in our domestic and international passenger terminals.
