

## Grand Opening of Air BIC CAMERA Chubu Centrair International Airport Stores on June 1

Two stores for an even wider range of merchandise!

\*No. 1 Store (Concept drawing)

\*No. 2 Store (Concept drawing)

On Friday, June 1, Air BicCamera Inc., a joint venture between Japan Air Terminal Co., Ltd. and Bic Camera Inc., will hold a Grand Opening\* of its Air BIC CAMERA Chubu Centrair International Airport Stores located inside Centrair Airport's international departure gate (area after immigration control).

\*Grand Opening will coincide with the opening of the No. 1 Store in the South Wing on Friday, June 1.

The Air BIC CAMERA Chubu Centrair International Airport No. 2 Store, which opened next to Gate 21 on Tuesday, April 3, is a curated shop with a carefully selected range of merchandise and has proved very popular with travelers. The newly opening No. 1 Store will sell products that are not available at No. 2 Store, such as digital cameras, health appliances, games, and bags. It will also carry a larger range of lifestyle and beauty appliances than No. 2 Store. The company plans to respond to customer requirements with this two-store set-up.

Prices will, of course, be of the same level as Bic Camera's flagship stores, and shoppers need only present their boarding pass to be exempted from paying consumption tax on any of the goods in the store.

Passengers can also make use of the convenient, secure services that only the Bic Camera Group can offer, such as ordering what you want to buy online and picking it up in store at the airport.
