

Japan Airport Terminal Group Procurement Policy

(Purport)

In view of its mission as a corporate group responsible for the construction, management, and operation of passenger terminals that are of highly public nature, the Japan Airport Terminal Group is committed, in accordance with its “Sustainability Basic Policy,” to taking into consideration, during its procurement activities, environmental and social issues that exist in its business activities as a whole across the supply chain, and executing transactions in a fair and sincere manner.

We ask all of our business partners to understand the purpose of the “Japan Airport Terminal Group Sustainable Procurement Guidelines,” which stipulates separate matters to be complied with. At the same time, we are committed to conducting responsible procurement activities in accordance with this Policy, by respecting each other's position and building good partnerships based on mutual trust.

(Scope of Application)

This Policy applies to all officers and employees of the Japan Airport Terminal Group. Regarding business partners, etc., we will apply the "Japan Airport Terminal Group Sustainable Procurement Guidelines" in accordance with this policy.

(Conducting Transactions in a Fair, Just, and Sincere Manner)

We will comply with laws and regulations and fair corporate practices adopted in respective countries and regions related to our business activities, and conduct transactions in a fair, just, and sincere manner.

(Ensuring Safety and Quality)

We the Japan Airport Terminal Group will pursue a high level of safety and quality in our procurement activities and secure the trust required for the products and services we provide. At the same time, we will establish a supply chain that is of high resilience.

(Respect for Human Rights)

We will respect all internationally recognized human rights in accordance with international human rights standards, laws, and guidelines, in addition to the “Japan Airport Terminal Group Human Rights Policy.” We will also strive to respect human rights throughout the supply chain.

(Consideration for the Environment)

We will ensure procurement activities that take into consideration environmental conservation and the reduction of environmental impact, and will work to curb greenhouse gas emissions, reduce waste, and recycle resources throughout the supply chain, in accordance with the “Japan Airport Terminal Group Environmental Policy.”
